

## SONNENWIESE® by KLAFS

Enjoy the positive effects of the sun at home - with the SONNENWIESE® from KLAFS. Following the principle of immediate pigmentation, tanning is especially intensive: Melanin, responsible for tanning, is re-produced. Additionally, the UV radiation encourages the existing melanin to move to the upper skin layers. This creates a natural, long-lasting tan for a lovely skin. Not to forget the futuristic design and, well-known for KLAFS, the highest aspiration for quality and reliability.

## SWAY by KLAFS

### THE POWER NAP

The biological rhythm of a person is the basis for health and performance. If it is disturbed, for example through stress or jetlag, then a power nap - a short energy-creating sleep - is a wonderful performance booster.

### THE INNOVATION

Like a boat on calm water, the SWAY pendulum lounge from KLAFS cradles you softly into an energy-giving power nap.

With its movements, the SWAY simulates the calm motion of a pendulum with the length of 7,50 m and a deflection of 115 mm. The resulting calm swinging motion creates an intensive and deep relaxation.

The awareness of the pendulum motion soon falls away and lets you forget time and space. Your muscles relax. Your breathing calms down. And your thoughts detach themselves from your daily routine.

### THE RESULT

After just 15 to 30 minutes of relaxing on the SWAY, your concentration and performance will increase noticeably. Regular SWAY naps help prevent long-term stress and, therefore, reduce the danger of stress-related illnesses.

KLAFS SWAY is an exclusive energy provider in many places: From the private sauna – as a sauna lounge -, to day spas; at trade fairs, in travel and congress centres, hotel and private spas, right up to the executive office levels. Thanks to its innovative swaying function, this relaxation lounge opens up new paths almost everywhere, doing body and soul the world of good and – while doing so – improving concentration, performance and reactive capabilities.

A short daytime nap helps regenerate the body and can increase the concentration, performance and reaction levels as well as lowering risk from heart attack. It is no wonder that many companies have discovered power napping as an effective option for themselves and their workers.

With SWAY, KLAFS takes this principle an important step further. Thanks to the unique pendulum function, the lounge is not only a comfortable place for a regenerating nap, but also an effective wellness programme for body and soul. And with such relaxed guests, you can take your own well deserved break now and again.

The SWAY motor and technical construction was perfected by our specialists in co-operation with scientists from the Fraunhofer IAO. The result: the motor works virtually silently creating the highest possible comfort and relaxation.

## A pleasant combination SWAY with SONNENWIESE®

If you want to wake up from your SWAY pendulum lounger session not only relaxed, but also radiantly beautiful, the combination with our SONNENWIESE® is particularly advantageous.

Like on board a ship, let yourself be swayed by gentle waves and warmed and tanned by mild rays of sun. And that at any time of the year. The combination of the SWAY pendulum lounger and SONNENWIESE® will have you wake up deeply relaxed and invigorated after just 15 minutes.
